

Crete Public Library District is pleased to offer to its patrons ...

MyMediaMall® for eBooks

NOTE: Please be aware that **eBooks** are **NOT** the same as **Audio Books**.

eBooks allow you to read the actual book on your computer screen, page by page.

1. Visit www.mymediamall.net
2. The bottom, left-hand corner of the homepage presents 2 eBook links where you can download the proper software: Adobe PDF eBook and Mobipocket eBook

HELPFUL HINT: Adobe PDF and Mobipocket are simply two different brands of software that display eBooks. Some titles are exclusive to one brand, while other titles are supported by both brands. We recommend you download both software programs to access the largest selection possible.

3. To download Adobe PDF eBook software, click the Adobe PDF eBook link and the next page offers two downloads at the top of the page: Adobe Digital Editions and Adobe Reader. **HELPFUL HINT:** We recommend downloading Digital Editions, where you may need to create an Adobe ID and password.

4. To download Mobipocket Reader, click the Mobi-pocket eBook link, and the top of the next page offers the Mobipocket Reader download link. Click this link and the following page displays a red DOWNLOAD button to install Mobipocket Reader 6.2. Follow instructions on screen.

CHECK OUT & DOWNLOAD eBooks

1. Sign in to MyMediaMall using your Crete Library card number, which is the 14 digit number on the back of your card. Your default password is your last name.
2. Select the titles you want, and check them out. You can have 5 items checked out at one time. **HELPFUL HINT:** If you place a hold, save an open slot in case that item arrives. eBooks typically check out for 3 weeks. They can be checked in before the due date. See *Digital Media Help FAQs*.
3. To download checked out material, go to My Account and then to My Digital Bookshelf. Click on the DOWNLOAD button under the checked out item. After download, you can access your items using the Adobe Digital Editions icon or the Mobipocket Reader icon on your desktop.

To enjoy eBooks on compatible PDAs, follow the instructions that allow transferring files between your computer and that device.
